

A large, abstract geometric graphic composed of several overlapping triangles in white, orange, yellow, and blue. The triangles are arranged in a way that creates a sense of depth and movement, with some pointing towards the center and others pointing outwards. The graphic is set against a dark blue background.

**Measurement
Management & Treatment
Performance Monitoring**

Aquametro Oil & Marine design to measure and maintain your performance

- » Measure performance and fuel consumption on any type of vessel
- » Our modular designed product range ensures that you can easily combine and extend your applications with our suitable sub systems

MEASUREMENT

1 CONTOIL® Fuel Oil Meters

- » Precision flow meters
- » Integrated temperature sensor
- » Mass signal outputs

2 Visco Master™ Sensor

- » Accurate viscosity measurement for perfect combustion
- » Minimum maintenance
- » Easy retrofits

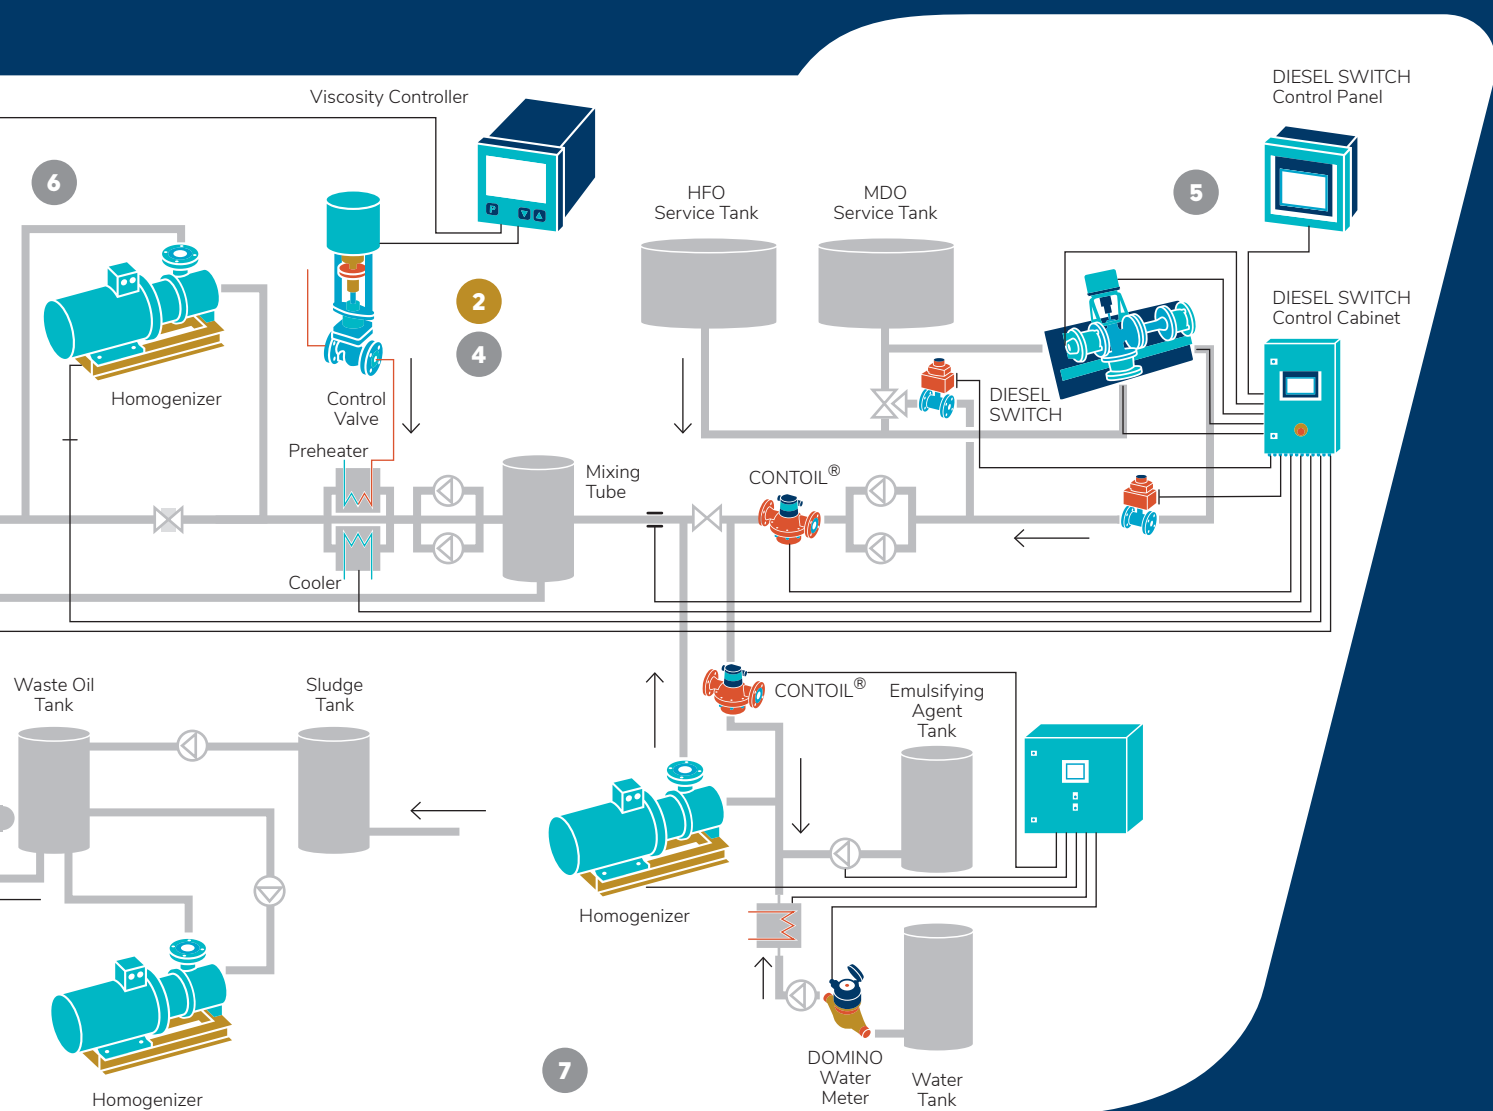

3 Shaft Power Meter (SPM)

- » Continuous torque measurement
- » Monitor propulsion train efficiency

4 Viscosity System

- » Accurate viscosity control for perfect combustion
- » Minimum maintenance
- » Easy retrofits

MANAGEMENT & TREATMENT

PERFORMANCE MONITORING

5 DIESEL SWITCH

- » Automated changeover and /or blending system DNV-GL typed approved
- » Complete fuel management system

6 Homogenizer

- » Prevents sludge and filter clogging
- » Helps to reduce wear and tear
- » Reduces deposits in engine hot parts

7 Water in Fuel Emulsion (WFE)

- » Reduces particulate matters and smoke in exhaust gas
- » Reduces NOx emissions

8 Fuel Performance System (FPS) / Remote Monitoring System (RMS)

- » KPI, trend, analysis, reporting
- » Fuel efficiency
- » CO₂ emissions
